

AirFree™ Dispensing Systems

LDS9000™ CA LDAV Linear Drive System

Available for free 30 day trial

The new LDS9000 AirFree™ CA system removes unreliable and moisture filled air from the dispensing process by replacing air pressure with a precision stepper motor and lead screw; more commonly known as the Linear Drive System (LDS).

As with traditional dispensers, the CA is completely contained in the polypropylene barrel reservoir. The AirFree™ barrel reservoirs are specially treated with a non-contaminating release agent that inhibits bonding between the cyanoacrylate and polypropylene.

The Fishman LDS9000 CA Linear Drive Dispensing System runs on 115 or 220 VAC and is easy-to-program assuring tens of millions of highly repeatable deposits. For Application Assistance, call 800-433-2115.

- No Air—Electromechanical linear drive system
- Two year fault free warranty
- PosiLok™ connector
- 10 memory locations
- For use with 3 or 10cc syringes
- Specially treated all-plastic air free components

Syringe Size	3cc	10cc
Min. Vol. (cc)	.00090	.00261
Max. Vol. (cc)	3.0	10.0
Min. Rate (cc/sec)	.023	.065
Max. Rate (cc/sec)	.552	1.567
Max. Pullback (steps)	500	500
Max. Delay (sec)	9.99	9.99

Specifications

Input Voltage: 100 to 240 VAC

Control Unit Size: 5.3" x 8.75" x 7.25";
8.9 x 22.3 x 18.4 cm

Dispensing Gun Length: 8.5"; 21.6 cm

Models

LDAV 3 or 5' gun cord all fluids

LDAV 3 or 5' gun cord extra-thick pastes

*Available with Starter Kits

AirFree™ Dispensing Components treated specifically for CA dispensing

AirFree™ CA dispensing components are designed specifically for cyanoacrylate dispensing, achieving optimized performance for all CA applications.

Barrel Reservoirs (available in 2 sizes)

- CA treatment locks out moisture
- Thickwall design eliminates flexing
- Precision molded zero degree taper assures smooth flow
- Disposable design eliminates need for cleaning

PosiLok™ Pistons

- CA treatment locks out moisture
- AirFree™ design featuring patented PosiLok™ piston attachment for positive displacement dispensing
- Precision molded for smooth flow and uniform advance
- Engineered to allow trapped air to escape while sealing in vapors and fluid

Dispensing tips (available in 3 styles)

- Ergonomic Surlock™ design locks securely to the barrel with a simple twist
- Multiple sizes and lengths available to satisfy any dispensing application

Fishman Corporation manufactures in a Certified Silicone Free environment, achieving close tolerance precision in an industrial grade system. Contact our Fluid Dispensing specialists to take advantage of our experience with thousands of successful applications and to pick the right components for your specific application needs.
