

SmartDispenser®

GENIUS® LEAD SCREW PROTECTOR

5cc, 10cc & 30cc Genius® Lead Screw Protector

The Genius® Lead Screw Protector is designed to add an extra layer of protection for the lead screw and stepper motor against dust and contaminants commonly found in manufacturing facilities.

The piston comes together in two halves and locking ring creating one complete piston stabilizer (see diagram) that secures the Lead Screw Protector in place.

5cc, 10cc & 30cc Genius® Lead Screw Protector

Genius® Lead Screw Protector Starter Kit

Lead Screw Protector Starter Kit includes a specially designed PosiLok™ piston stabilizer and ten Lead Screw Protectors which fits 5cc, 10cc or 30cc syringes. The stabilizer comes together in two halves and locking ring creating one complete piston stabilizer that secures the Lead Screw Protector in place. We also include a How-to video for attaching the piston stabilizer and lead screw protector to the LDS® dispense gun on a 1GB USB SmartDispenser® thumb drive.
