

# Semco® Standard Nozzle Chart

## Disposable Nozzles

Semco® disposable nozzles are precision molded and have a ¼" NPT thread to fit Semco® 1, 2.5, 6, 8, 12, 32 oz. and 1/10 gallon disposable cartridges. A wide range of lengths and orifice sizes are available to better meet your application needs. Dispensing nozzles can be bent to varying degrees; however, a minimum order, lead time and pricing considerations do apply.

## Nozzles

Description	Part Number
252 Nozzle	220538
254 Nozzle	220540
255 Nozzle	233495
410 Nozzle	220542
415 Nozzle	227613
420 Nozzle	220544
430 Nozzle	220548
440 Nozzle	220550
620 Nozzle	220553
640 Nozzle	220555
650 Nozzle	224494
820 Nozzle	220557
840 Nozzle	220559
1002 Nozzle	220561
1004 Nozzle	220563
1010 Nozzle	220565

## Bent Nozzles

When ordering bent nozzles, first give the standard number, then the angle of the bend (D), then the length of the bend from the tip (C). For example: #640, 30 Degrees, 2 inches.
