

# AIRPULSE™ CARTRIDGE RESERVOIRS

AirPulse™ cartridge systems allow reservoirs to expand well beyond 50 cubic centimeters (cc). These durable polyethylene cartridges

can be used in a pressure vessel with any AirPulse™ dispenser or in a hand gun for easy, “on the fly” applications.

## Cartridge Reservoirs

- Available in:**
- Low density polyethylene
  - High density polyethylene
  - Custom colors with a 5,000 piece minimum order
  - Super high density polyethylene with a 5,000 piece minimum order
