

Despite the fact that our competitor brings you

# Nifty Knobs Little Lights and Creative Colors...

it's still just an **unreliable air dispenser.**

*Linear Drive System.  
The most stable adhesive  
dispensing system available.*

Don't be caught buying "form over function."  
(we call it getting FOF'd).

The fact is, that Fishman's AirFree™ Linear Drive Systems  
offer you repeatability and stability, unheard of in  
old pneumatic system technology.

Contact us about how you can experience dispensing  
using our AirFree™ technology, and avoid getting "FOF'd!"

Remember... we don't sell "pretty", we sell performance.
